FINAL REJECTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 16-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 16 recites the limitation "wherein the stop or stops provided in the fixing zone consist of one or more blocking wedges or washers." There is insufficient antecedent basis for this limitation in the claim. Claim 16 is dependent upon claim 12 and claim 12 fails to recite a stop or stops.

Allowable Subject Matter

3. Claims 11-14 and 19 are allowed. The closest prior art is considered to be Brichoud et al. '613 and Weinhaus '982. Brichoud et al. '613 discloses a method for manufacturing a ski or snowboard, wherein pieces 35, 26a are engaged on the outer surface of an exterior decorative assembly 25, 19, each said piece projecting from the inner surface and having at least one fixing zone (figures 9 and 10). However, the reference does not disclose a method wherein the pieces and the exterior assembly are placed in a mold *after* said pieces have engaged the outer surface of the exterior assembly. Weinhaus discloses a method for manufacturing a ski or snowboard, wherein pieces are engaged on the outer surface of an exterior decorative assembly each said

Art Unit: 1733

piece projecting from the inner surface and having at least one fixing zone (figure 10, column 3, lines 32-52). However, the pieces are engaged after the ski and exterior surface have been molding as is well known in the art. No teaching in the prior art would motivate one of ordinary skill in the art to modify the method of Brichoud et al. '613 or Weinhaus '982 such that the pieces are engaged on the outer surface of the assembly before the assembly and ski body is placed in a mold.

Claims 16-18 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph.

Response to Arguments

Applicant's arguments with respect to claims 16-18 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 1733

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
